Summary

Recently graduated on software and web development, acquired interest and experience working with front-end technologies such as HTML, CSS, Javascript and React. Seeking a position as a front-end web and app developer using libraries like React and React Native, aiming the leverage of problem solving, logic, design and communication skills for mutual benefit.

Skills

HTML	CSS	JavaScript
ES6	React	React Native
Problem Resolution	Teamwork	

Education

British Columbia Institute of Technology

12/2019
Vancouver, British Columbia

Applied Web Development
Core courses provided a solid understanding of best practices in web page design, data modelling, planning, documentation and a variety of scripting tools with an emphasis on HTML5,CSS3, JavaScript, JQuery and React development.

At the end of this program, I was able to develop, build and manage web sites to industry standards.

British Columbia Institute of Technology

06/2018
Vancouver, British Columbia

Applied Software Development
This Associate Certificate from BCIT Computing focuses on writing code in multiple languages including Java, C#, C++, C and Swift. Elective options include QA and Agile.

After successful completion of the ASD program I learned skills in IT systems analysis, requirements discovery, critical thinking, process mapping, documentation, technical communication, presentations, and team work.
